If a payment made to a public elementary school is three percent more or less than the calculated net cost per elementary pupil in the receiving school district for the year of attendance, the district shall be reimbursed, credited, or refunded pursuant to section 836 of this title. Notwithstanding the provisions of this subsection or of subsection 825(b) of this title, the boards of both the receiving and sending districts may enter into tuition agreements with terms differing from the provisions of those subsections, provided that the receiving district must offer identical terms to all sending districts, and further provided that the statutory provisions apply to any sending district that declines the offered terms.

(b) The tuition paid to an approved independent elementary school shall not exceed the lesser of: (1) the average announced tuition of Vermont union elementary schools for the year of attendance; or (2) the tuition charged by the independent school. However, the electorate of a school district may authorize the payment of a higher amount at an annual or special meeting warned for the purpose.

b) Except as otherwise provided for technical students, the district shall pay the full tuition charged its pupils attending a public high school in Vermont or an adjoining state, or a public or independent school in Vermont functioning as an approved area technical center, or an independent school meeting school quality standards. If a payment made to a public high school or an independent school meeting school quality standards is three percent more or less than the calculated net cost per secondary pupil in the receiving school district for the year of attendance then the district shall be reimbursed, credited, or refunded pursuant to section 836 of this title. Notwithstanding the provisions of this subsection or of subsection 825(b) of this title, the boards of both the receiving and sending districts or independent schools may enter into tuition agreements with terms differing from the provisions of those subsections, provided that the receiving district must offer identical terms to all sending districts, and further provided that the statutory provisions apply to any sending district that declines the offered terms.
